SECTION 2 – ACADEMIC DETAILS

Brief description of the content of the unit

This unit develops the students' appreciation of the complexities surrounding pneumatology and ecclesiology. It connects strongly with the MTC formation domain, *Engaging God's Story*. The unit aims to help students analyse these topics inter-contextually: that is, alongside contemporary western evangelical scholarship, students will learn to effectively engage with theologians from various historical contexts (e.g., Patristics, Medieval Scholastics, Reformers), cultural contexts (e.g., indigenous, African, South American), ecclesiastical contexts (e.g., Orthodox, Catholic, Baptist), as well as other often-marginalised voices (e.g., women, African Americans). In so doing, students will learn to synthesise key theological issues coherently. Key topics include: the Spirit's role and relationship in the Trinity, including the Filioque clause; human interactions with the Spirit in salvation, worship, and sanctification; the dynamics of ecumenicalism and denominationalism; the nature of the Church, or the churches; methods and meanings of the sacraments, including baptism and the Eucharist.

Learning outcomes for the unit

- 1) Analyse the historical and cultural developments within pneumatology and ecclesiology
- 2) Evaluate various approaches to these doctrines cogently, with a view to effectively recommending them in various contexts the students may encounter
- 3) Justify their own position on key issues within one of the relevant theological topics, with reference to relevant scholarship
- 4) Synthesise various approaches to a relevant theological topic from across the historical trajectory of the Christian tradition, in order to create a coherent framework for the given topic
