SECTION 2 – ACADEMIC DETAILS

Brief description of the content of the unit (key topics):

This unit introduces students to the underlying theology and praxis of pastoral health and care for individuals and faith communities. It connects strongly with the formation domain *Engaging the World & Others' Stories* in Tabor MTC's curriculum paradigm. *Pastoral Health and Care* is designed to equip students with the knowledge, skills and dispositions needed for undertaking effective pastoral care and enhancing pastoral health in diverse ministry settings. Key topics covered include: biblical and theological foundations, spiritual dynamics of care (such as presence, vulnerability, hospitality, listening, difference and conflict), theological reflection upon pastoral care encounters, pastoral health and care in community, and pastoral self-care/health.

Learning outcomes for unit:

- 1) Discuss the nature and scope, theological basis and spiritual dynamics of pastoral health and care with reference to the biblical text and contemporary scholarship
- 2) Theologically reflect upon significant experiences of giving and/or receiving care, and their unique capacity and skills as a pastoral carer
- 3) Resource pastoral health and care ministries in specific church, parachurch, or chaplaincy settings
